said Mra. Smith to her sister, Mra. Davis, as the
sound of a colid's shricks come across the garden

FIREMEN ON TRIAL.

Cases that Came Up Before the Fire Com-

At the regular meeting of the Fire Comnissioners this morning Engineers George W. Greer and Herman Busse, of Engine 26, were charged with falling to keep a proper supply of water in their engine while at a ire, which resulted in the scorching of the poiler, causing the pipes to leak and render-

bouer, causing the pipes to leak and rendering it unfit for use.

The evidence proved that the coupling from the engine to the hydrant had burst and the water dashed against the glass gauge, which fractured it, and the hot steam rushing out prevented the engineers from manipulating the engine to avoid the damage.

These grounds, coupled with the good record of the men, caused the case to be dismissed.

Capt. Kittson, of Engine 46, reported that Fireman W. H. Jones, of Engine Company 1, and John J. Larkin, of Engine 46, rendered voluntary assistance at the fire on the 25th inst., and their services were very valuable. The Commissioners ordered their names to be placed upon the roll of merit.

THE PARK GATES WILL OPEN.

BUT FIRST THERE MUST BE # HEARING OF BOTH SIDES.

The Park Commissioners Have Received Letters from Property Owners in Oppo sition to the Opening-Views of Alder man Divver of the Committee Holding Yesterday's Resolutions.

In regard to THE EVENING WORLD's fight secure the admission of the people to Stuyvesant Park in the evening, Alderman Divver said this morning: "I am confident that the gates to Stuyvesant Park will be opened to the public in the evening before long." Aldermen Divver, Murray and Cowie were

appointed a committee by the Board of Aldermen yesterday to present the resolutions of the Board to the Park Commissioners. These resolutions will first be presented to

the Mayor, with the request that he sign them.
"To whom will belong the credit of opening the gates?" was asked of the Alderman.

"I have no could the Park Commissioners will act very soon in the matter and open the gates. We will present the resolution passed by the Board of Aldermen to the Mayor very soon and then will see the Park Commissioners. and I think they will open the gates of the park on the request of the Board of Aldermen whether we secure the Mayor's approval of not.

However, I think Mayor Hewitt will sign

The resolutions and we will have plain sailing.
There is no reason in the world why we should not, as has been clearly shown in The Eversing World.

"The people will, I think, appreciate the park, for they have been deprived of it so long."

Through a misunderstanding of the hour Through a misunderstanding of the hour the committee appointed at the citizens' mass meeting in Stuyvesent Hall to wait upon the Park Commission did not appear till after the Board had adjourned to-day, but Commissioners Robb and Towle were still at the office of the Department, and M. J. Kelley and John Begg, of the committee, presented the resolutions of the Stuyvesant Hall meeting, and urged that action be taken at an early moment.

at an early moment.

Mr. Robb said: "No injustice has been done to any one, for no one has ever asked me to open the park; but since this agitation began, three or four persons owning property on the square have asked that they be beard in opposition to the plan. We will hear both sides at our meeting on Wednesday

next.

"As for me, I think the people should have what they ask. I think the gates should be open. That is what the parks are for."

Mr. Kelley urged that the moral aspect of the question was favorable to the petitioners, as a lighted park properly policed was a nreventation of wrong-doing within its precincts, while Idvingston and Rutherford places and Second avenue were now so dark at night that ladies feared to pass that way.

Commissioner Towle said: "I think I am safe in saying that the people of the Sixteenth Assembly District will have their park. Their requet is a most reasonable one. The park certainly should be open till 10 o'clock at night."

10 o'clock at night."

Commissioner Robb said: "Thirty years ago the neighborhood of this park was the most aristocratic and exclusive in this city. Then the park was inclosed and gated at the request of those who supposed they would always own all the property in the neighbor-

hood.
The tenement-house is a thing of later is changed, and the park ought to be opened; but we cannot presume to open the gates without hearing both sides. Come next week

WHAT THE POSTMASTER SATS, Postmaster Pearson received an Evenino World reporter in his office to-day. He was asked what system would be used in governing the working hours of letter carriers now that the Eight-Hour law had come due, and replied that he could give no outline as yet, but that with the 261 new men just engaged, no man would be asked to do more than the eight hours work.

be asked to do more than the eight hours work.

"The appropriations," continued the Postmaster, "will not permit of a time schedule which assigns eight consecutive working hours for each man, for such a scheme would require a larger additional force of men than we could pay, and so you see that many of the carriers will have to divide their time into, say, two parts of four hours each."

"But, Mr. Pearson, suppose that carriers now whose time is divided into two sections of four hours each are obliged to put in the time between the two sections in acrticing letters and doing other work here in the office, so that many men really work eleven hours a day. Will that be remedied?"

"You suppose a case that has no existence. The time which elapses between the two or three assignments which complete the eight hours required is the man's own, and he can use it as he likes."
